THIS SOCIETY will receive proposals for Life Assurance, through the undersigned, as its Agent for this City, on terms highly favorable to applicants.

Prospectuses may be had on application, together with blank forms of proposal, and such other information as parties may desire.

The following are among the advantages offered by this Institution:—

The Guarantee of a large capital securely invested.

The peculiar Benefits secured by the principle of the Loan Department.

The payment of Premiums Half Yearly or Quarterly, by parties assured for the whole term of Life.

[illegible]

in the United States.

Wives may insure the lives of their husbands for their own and the benefit of their children.

The assent of the Society is not necessary to a transfer of the Policy.

For all practical purposes, this Agency is essentially an American Company, strengthened by a large bona fide Capital safely invested in London; equally available to American as to British policy holders. All losses are settled by the New York Board, and paid by Bills drawn on the London Office. Thus the Guarantee Fund in New York remains untouched, so that in case any disputes should arise between the society and policy holders, funds are on the spot, subject to the control of our Courts.

Medical Examiners fees are paid by the Society.

IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.
"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notions through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some fifteen years since, and another one put up by Albert Rohrer, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty years experimenting upon these machines, not one in the is of any value for the purposes contemplated.
I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
Philadelphia."
May 19, 1849.

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

OFFICIAL PAPER OF THE CITY.

Railroads in Wisconsin.

A strong effort will be made during the coming session of Congress to induce Government to make a liberal grant of land for the extension of a railroad from Fond du Lac to Lake Superior, and with every prospect of success. Indeed, after the large grants bestowed upon Illinois and other states we do not see how Congress can refuse to do justice to Wisconsin, and the increasing population of the Northwest.

But while we hope for the success of this effort to bring the trade and travel of the north through our state, we look also for earnest efforts for the early completion of two other lines of road.

One of these is the route from this city to Minnesota, terminating at Prairie La Crosse, passing through Watertown, Portage City, and Baraboo. Two favorable charters were obtained last winter, one for the Milwaukee and Watertown R. R., with, we believe, the privilege of extension to Fort Winnebago, or Portage, and the other from thence westward. Vast quantities of valuable U. S. lands lie on the contemplated route, and it is one which, with a just liberality on the part of Government, can be speedily built and furnished, and secure to our state a most valuable trade.—Its value to Milwaukee would be incalculable.—We look for early action on the part of the Legislature, memorializing Congress for such grant of public lands for the purpose as may be sufficient.

The other Railroad, in which our city, and the whole Southern and Western portion of the State is interested, is that of which a portion has been now some eight months opened to the public, and which is satisfying even the most sceptical, of its ability to pay its way handsomely. The cars are now running 30 miles to Jenkinsville, and will reach Palmyra shortly, and Whitewater, 55 miles, at an early day. The contracts are let, and its construction secured to Madison. The people through Dane County and the counties West are awaking to the importance of the road to them, and our Iowa friends are anxious for a connection with us. The suggestion is made, and it is a good one, that, as has been done in other States, the counties through which this road is to pass, furnish their credit to it, by subscriptions to its stock. We hope to see our friends in the centre and west move soon in this matter. Our city has *done its duty* towards this road, nobly, and will stand by it. The farmers and business men along the line have done their duty;—now let the centre and west see that means are provided to push it forward to completion. Its eventual completion is sure, but every month gained in time is of vast interest to the farmers, merchants, miners, of the centre and south west.

As to a Government grant, for this road in connection with the Iowa roads, we see no reason why it should not be given, and no effort should be spared to attain such a desirable result. We trust that our members of Congress are ready to co-operate and labor earnestly for justice to Wisconsin. We know of no claims that Illinois has to Government aid, that may not be fairly made in behalf of *any* of the important railroad enterprises in this state, Iowa, or Minnesota.

OFF FOR SALT RIVER!—The *Commercial* of yesterday, in response to the call of the Rock County *Badger*, gives minute directions for navigating Salt River, and cheerfully assumes the task of piloting the Hunker craft up that classical stream. There can be no doubt that under such auspices they will succeed in reaching the very head of navigation. Brother BRYAN has been there before "once or twice" he says; oftener, according to our recollection. His first trip was made in 1828, in company with the National Republicans, or Whigs of that day. His next one, so far as we know, was in 1840, on board the well-known craft VAN BUREN. We are sorry to record, however, that he left this vessel "on the sly," paddled his own canoe down stream, and shipped on board the JOHN TYLER, a "wild boat" that nobody trusted and on which he would have gone up Salt River a third time, if he had not saved himself, in the nick of time, by taking service under the new POLK flag. In 1848 his vessel changed masters, but not flags, and being pretty well peppered by the Frigate *Constitution*, ZACH TAYLOR commanding, sought refuge in Salt River, carrying our neighbor up with the rest of the Cass crew. How he got down again we don't know; but last spring started him up Salt River for the fourth time, and this Fall he is in for a *fifth* trip! Partly in recognition of his valuable experience, as a Salt River Navigator, and partly as an acknowledgement of his successful efforts during the recent campaign in sending the Hunker craft Salt-Riverwards, they have elected him Admiral. We give him joy of the appointment and our Hunker friends of the selection. They could not have made a more judicious one, if they had tried a month. We don't know any gentlemen in all our acquaintance better qualified to conduct a party up Salt River, or more likely to keep them there.

MORE "CRUMBS OF COMFORT."—The *Wisconsin*, which is rather non-plussed by its defeat here and its disappointment at New York, finds comfort in its affliction in the hope that the victors will quarrel over the spoils. In New York especially, it thinks that "the result will produce even more inextinguishable divisions in the whig ranks of that State."

For Hunkerdom's sake, it is certainly to be hoped so. If the whigs of New York, with the elements of disunion and dissension rife in their ranks, could beat the united "democracy," what chance would there be for the latter, should the whigs for once, by way of variety, bury the tomahawk, forget their griefs, and take the field in one unbroken phalanx?

☞ The *Wisconsin*, which is just stupid enough to persist in a blunder, fired another squib at Mr. CHUMSEY yesterday afternoon. As JIM has taken up the cudgels in his own behalf this morning, we won't spoil sport by interfering further. If he don't dust both the *Commercial's* and *Wisconsin's* jackets to their entire satisfaction, we are no judges.

THE OLD RATS vs. KOSSUTH.—It is manifest that Kossuth will not be received in this country without opposition. The old fogies of all classes and all parties will strive to disparage him and his motives.—*Wisconsin of yesterday.*

This is a sly and rather sharp poke at the "old fogies" of the *Commercial*, which published rather a "disparaging" article about KOSSUTH, on Tuesday.

ISLANDS OF SAN JUAN FERNANDEZ.—The *Diario del Vapor*, of Valparaiso, says "that recently "valuable gold and silver mines have been discovered in these islands; and adds that "this knowledge will have a tendency to make the deserted islands teem with population, and abound in industry and prosperity."

We fear that the *Vapor's* story is all "smoke."

RAIL ROADS EAST FROM CHICAGO.—The Michigan Central and Southern Railroads are pushing forward rapidly towards Chicago. The Cars on the latter now run 25 miles West of Michigan City, and those on the former 21 miles. By January the Rail Road connection between Detroit Chicago, and Toledo and Chicago, will be completed. *Sic transit gloria* of New Buffalo!

LAKESHORE RAIL ROADS.—We learn from the Michigan City *News* that the cars are now running from that place 25 miles west on the Michigan Southern Rail Road, and on the Michigan Central 21 miles. The *News* also says that the Central road will be completed to the Illinois line by the first of Dec. It is already graded to within five miles of it.

GENOA STEAMSHIP COMPANY.—At Genoa the shares for the New York Steam Navigation Company have been largely disposed of amongst the capitalists of that place. Mr. Livingston, of New York, one of the chief projectors, has taken $50,000 dollars worth of shares himself.

The General Result.

We republish below our tables of majorities for Governor, and of members elect to the Assembly, making such alterations as further returns give us. Farwell's majority for Governor will be about 1500. The remainder of the Locofoco State ticket is elected, except State Superintendent.—We see no reason to doubt that Mr. LORD, the independent candidate, is chosen to that office.

In the Assembly we have some additional returns, which make some changes to be found in the table.

If the five uncertain counties shall return members as we have them in the table, and as we think they will, there will be a Whig majority in Assembly. It is unfortunate that, only for the want of 20 more votes, we lose one member in Kenosha, two in Waukesha, and probably one in Dodge.

In the Senate last year the Whigs had *three* members, and in the Assembly *eleven*. This fall we *double* our number of Senators, and nearly or quite *treble* our number of Assemblymen. We think that will do for one year!

Correspondence of the Milwaukee Sentinel.

Portage County—Well Done.

STEVENS' POINT, Nov. 5.

DEAR SIR:

Our election has closed and fall as well for us as we could have anticipated. The vote at this poll stood thus:

For Governor.—Farwell (W) 54, Upham (D) 68.

For Senator.—Alban (W) 76, Butterfield (D) 28.

For Assembly.—Charles (W) 61, Cate (D) 59.

In Plover, ALVAN has 109 out of 117 votes cast, and CATE 102. On the State Ticket the vote is even. Banks largely ahead.

We think Alvan certainly elected to the Senate from this District.

Coroner.—Erickson, 485; Hemming, 330; Slocum, 308.

It will be seen that the Whigs lose a member of Assembly in Kenosha County by 8 votes.

GRANT CO.—The Grant County *Herald* furnishes a very complete table of returns from 12 towns, to which we add two towns which we had from the Platteville *American*, and foot up the majorities as follows:

Governor, Farwell, Whig, 13 majority.
Lt. Governor, Burns, loco, 30 "
Sec'y of State, Robinson " 29 "
Treasurer, Crawford, Whig, 58 "
Atty. General, Estabrook, loco, 16 maj.
State Sup't., Ladd, 231 maj.
Senator, Squires, loco, 395 maj.

No Bank, 1060 majority. Four towns yet to hear from.

We think the election of Richardson, Whig, to the Assembly from the South district is certain.

LA CROSSE COUNTY.—A correspondent of the *Wisconsin* furnishes the following official vote of La Crosse:

DEM.		WHIG.	
Upham	113	Farwell	24
Burns	127	Hughes	11
Robinson	122	Wright	18

Jefferson County Official.

Jefferson, Nov. 12.

UPHAM 31 majority for Governor.

STEWART, whig, 151 majority for Senator.

Two whigs and one democratic Assemblymen elected from the county.

MERTON, WAUKESHA CO.—Farwell has 11 majority, the vote being 40 for Upham, 51 for Farwell. The remainder of the Loco State Ticket is about the same as for Upham.

The whig candidates have 15 votes each, and the free soilers 36. LORD, for State Superintendent has 17 majority.

CHARGE OF JUDGE MCLEAN.—The charge of Judge McLean to the grand jury of the U. S. Circuit Court for Ohio, at the late October term, is published in the Cincinnati Gazette of the 31st ult. It relates entirely to the expedition against Cuba, of which the learned Judge says—"There never was an invasion among civilized nations more atrocious and less excusable."

NEW STEAMER.—A new steamer is being built at Clayton, on Lake Ontario, for the Ontario and St. Lawrence line. She has 224 feet keel, 32½ feet beam, 12½ hold, and an entire length of 242 feet. She is to be propelled by an engine of 60 inch cylinder, and 12 feet stroke, from the foundry of Dunham and Co., New York city.

EXTENSION OF THE CAPITOL.—Eighteen bids for the marble and work of building the addition to the Capitol at Washington have just been opened. The highest is that W. G. Emory, for $1,780,000, Eastchester marble to be used; the lowest $773,000—to use the large crystal marble from Maryland.

☞ Mrs. Sally B. Gray, sister of the late President Taylor, died near Louisville on the 6th ult. She was fifty years of age.

ANOTHER EXHIBITION.—Mr. Riddle, the U. S. Commissioner, and M. Bushek, the Austrian Commissioner, have advertised in the London papers that the most valuable and attractive portion of the articles exhibited in the late London Exhibition, are to be transferred to New York, to be exhibited there in the summer of 1852. The following details of the arrangements are given:

> Arrangements have been made for the erection of a building on an extensive scale, in a central situation in the city of New York, contiguous to the various railway termini, which, when completed, will be made a bonded warehouse for the period of the Exhibition.
>
> The goods will be conveyed from London, in first-class vessels, and all charges, freight, insurance, &c., will be advanced, so that no outlay of money on the part of the exhibitors will be required.
>
> The goods will be exhibited with the prices attached, and, when disposed of, remittances will be promptly forwarded. Should any goods remain unsold at the close of the exhibition, they will be returned to the exhibitors free of all expense.—Works of art, including paintings, will be admitted.

We doubt very much whether another World's Fair will succeed so soon after the one which has just closed. Exhibitors, in a majority of cases, cannot afford the great expense to which they are necessarily subject.

THE REASON WHY.—Our democratic contemporaries are busily engaged in the task of accounting for the recent signal overthrow of Hunkerdom in this State. The Chicago *Democrat*, Long John Wentworth's paper, takes a hand in, and explains the matter, to its own satisfaction at least, in this wise:

> WISCONSIN.—The whigs appear to have made a clean sweep this year. Next year, if we can get some new man as a candidate for President, say Dodge, Douglass, Marcy, Dallas, Butler, Houston, or R. J. Walker, we will sweep the State much cleaner.
>
> What beat us this year, was the election of Cass and Foote delegates to Baltimore *under the pretence* of being for Dodge.
>
> All instructions for him were fraudulently kept down. The old Black Hawk Warrior, the White Eagle of the West, as the Indians used to term him, was damnably cheated in his own convention. If nominated, he can be elected. *But the Wisconsin delegates are under the control of Cass and Foote.*

Our neighbor of the *Commercial* is the proper person to plead to this indictment, being one of the Delegates specially referred to. We suppose that he will feel called upon to "define his position."

HOW TO "PUT OUT" A CANVASS.—At the recent election in New York City, a mob of rowdies in the 19th Ward, finding their candidates likely to be beaten, attacked the Polls, drove off the Inspectors and destroyed the Ballot-boxes. In the other District of the same Ward, however, though the election was brought to a sudden stop, the ballot-boxes were saved. But when the Inspectors tried to canvass the votes they were again interrupted in this wise:

> 19TH WARD.—The Democratic Alderman and Assistant in this Ward, will claim their election, we are told. Two of the Inspectors and one of the Clerks were not present. The remaining Inspector (at the first District poll, corner of 48th street and 8th avenue,) called in John J. Duryea and Samuel R. Scott, and for Clerk, Henry Liebenau. On this organization, the Inspectors began to canvass the votes, when some one jumped on the table and endeavored to knock off the ballots. Soon after he left the room, an alarm of fire was given, and suddenly the door opened and in rushed a fireman with hose in hand playing a powerful stream of water, washing the Inspectors to the skin, scattering the ballot boxes, books and papers in all directions on the floor. The inspectors rallied, gathered up their papers and books, and feeling themselves too insecure to continue the canvass any further in that place, engaged an omnibus and conveyed the boxes to the Sixth Ward police station, at the Tombs.—N. Y. *Express.*

State Superintendent.

WASHINGTON CO.—All but 10 towns give Upham 364, and Lord 85.

The Blade thinks that Upham will have 1000 majority in the county. The vote on Superintendent will be nearly even.

We are inclined to think that the above votes indicate a close run on School Superintendent.—[Commercial.

It may be that the run is close, but the above votes do not indicate it. So far as they indicate anything, they show 800 or so better for Lord than Farwell.

LITERARY PIRACY.—Mr. Hildreth, the author of the able and copious history of the United States, published by Messrs. Harper & Brothers, has addressed a letter to those gentlemen, asserting that Judge Haliburton, in his work on the "Rule and Misrule of the British in America," has "repeatedly borrowed, not only sentences and paragraphs, but whole pages, from his (Mr. Hildreth's) history, with the alteration of hardly a single word, and without the slightest intimation that the composition was not his (Judge Haliburton's) own."

LIBRARIES.—A work has lately appeared, under the auspices of the Smithsonian Institution, which furnishes some interesting information relative to libraries in this country. According to its statements, the number of libraries containing over 1000 volumes each is 423; aggregate number of volumes 2,105,652; this is exclusive of public school Libraries. There are 43 libraries containing over 10,000 volumes, 11 containing over 20,000, and the five following containing 50,000 or over:

Howard College,	84,200
Philadelphia Library,	60,000
Yale College,	50,481
Library of Congress,	50,000
Boston Athenaeum,	50,000

Portage and Marathon.

A correspondent of the *Commercial* states that G. W. CATE, dem, is elected to the Assembly from the district composed of Portage and Marathon counties. In the two counties, ALBAN, whig has 400 maj. for Senator.

Portage gives Upham 40 or 50 maj. In Marathon the vote is about even.

"NO SUCH IDEE."—The Boston *Atlas* having stated that a democratic meeting in Roxbury *unanimously* voted to coalesce with the Free Soilers, Mr. J. P. Robinson writes to the *Atlas* that he was present and protested against such action. It seems that

J. P.
Robinson he
Says that he hadn't.
No such *idee*.

POST OFFICE CHANGE.—We are glad to see that Col. FITZ HENRY WARREN has become 1st Assistant Post-master General, having been transferred to that office from his present post. As, in his new position, he will have the charge of the transportation of the mails, we look for an early attention to the wants of the North-West, and Col. Warren's character for promptness and efficiency is a guarantee that our hopes will be realized.

REMOVALS IN MINNESOTA.—The St. Anthony *Express* says with regard to the recent changes in the officers of Minnesota Territory:

> We learn that the late Secretary of the Territory has been removed, and Hon. A. Wilkin appointed in his stead. It is said, too, that Hon. H. L. Tilden, Marshal of the Territory, and a firm and true friend of the Administration, has been removed, and Hon. J. W. Furber, who is also a staunch and reliable Whig, appointed in his stead. Although Mr. Furber would fill the station with credit to himself and the Territory, we see no call for a change.

City Matters.

CONCERT TO-MORROW NIGHT.—The BLAKELY FAMILY, sing to-morrow night at Gardiner's Hall They have been singing with great acceptance to crowded houses in the East and on their tour westward. The Cincinnati *Commercial* says of their performance in that city:

> The Blakely Family rose at once in the good opinion and favor of the Cincinnatti public, by their superior performance, on Thursday eve.—Their manner of entertaining an audience is different from and in many respects superior to any company we have seen.
>
> The young ladies are the sweetest singers we ever heard. The bass voice is almost unapproachable. The violinists are both of a very high order. Indeed, this family altogether, has never beed excelled by any similar troupe.

Give them a good house.

MILWAUKEE DAILY JOURNAL.—The first number of this new Daily, published by Messrs. WILSON & HAMILTON, made its appearance yesterday P. M. It is about the size of the Free *Democrat*, neatly printed, Whig in its politics, and is published every afternoon at $4,00 per annum. The *Journal* makes the eighth daily now published in our City, and is no discredit, in appearance or in fact, to the Milwaukee Press. We hope to find in it a zealous and efficient co-laborer in the Whig vineyard, and wish it abundant success.

BARBER SHOP.—Opposite the Post Office, on Wisconsin Street, is the Barber Shop of Mr. GEO R. SYMES, of unpretending exterior, but undoubted excellence. GEORGE himself has lived some three years in our city, and has always maintained an enviable reputation for honesty, good conduct, and attention to business. He is unrivalled himself in his art, has an excellent assistant, a well furnished Shop, and hosts of friends and customers. See his card in our advertising columns.

YOUNG MEN'S ASSOCIATION.—*Public Discussion.*—We learn that at the last meeting of the Directors of the Young Men's Association, it was determined to have a series of public discussions at their rooms, during the winter—the first one being appointed for Monday evening next.

LECTURES AND EXPERIMENTS.—Professor GRIMES delivers the first of his amusing and instructive Lectures at the Free Congregational Church *this* evening. Admittance one shilling. We think all who hear him will agree that their time and money have been well spent.

THEATRE—LAST NIGHT OF THE SEASON.—The Theatrical season at Gardiner's Hall closes *this* evening, when Mr. BRYDGES will take a Benefit. The bill is quite a varied one, and no doubt the generous public will be glad to give Mr. BRYDGES and the Company "one bumper at parting."

☞ In spite of the North East blow and the heavy sea yesterday, the *Pacific* came through in good season from Chicago, landing her passengers and mails here about 5 P. M. The *Pacific* is a staunch sea-boat, and Capt. COOPER every inch a sailor.

POTOSI & DODGEVILLE RAILROAD.—The following letter which we find in the Potosi *Republican* shows that our friends in the Western part of the State, and in Iowa, are in earnest in their endeavor to secure the completion of the Milwaukee & Mississippi Railroad:

Dubuque, Oct. 17.

D. A. Mackenzie, Esq:

DEAR SIR:—We are pleased to learn that the citizens of your county are about waking up to their true interests in relation to the Railroad connecting with Milwaukee, and some new and highly important facts in relation to our progress and prospects, and especially in regard to a grant of land from the General Government in aid of all these enterprises, might afford encouragement to you. We, therefore, the Agents of the Dubuque and Keokuk Railroad North, accompanied by their Engineer, (S. Dwight Eaton, Esq.,) would propose to meet the citizens of Grant County, on Tuesday the eleventh day of November, in the afternoon, at Potosi, if you will meet at the time and place above mentioned.

Respectfully yours,
LANGWORTHY & LOVELL Ag'ts.

WORK ON THE IMPROVEMENT.—The Green Bay *Advocate* furnishes the following information of the work below Lake Winnebago:

> *Kaukauna.*—The Improvement of the river at Kaukauna, continues to go on with the greatest energy. The upper contract is the heaviest and is taken by Mr. John Allen, an old and experienced contractor from the east, and the work bears evidence of his skill and experience. He is making a canal, with a stone wall upon the other, and the work looks as if it would stand forever. The stone is taken from the bed of the river, and comes up in flakes of convenient thickness; not a blast of powder has been used.
>
> CEDAR RAPIDS.—The works at this place are about being suspended for the winter, after being made safe against the encroachments of the elements. A strong stone abutment has been added to the east end of the dam, which gives it complete solidity. The banks of the canal have been lined with a stone wall, the dam is closed up and finished, and the whole work is characterized as being one of the best as well as the handsomest on the line.
>
> *Rapide Croche.*—The work of building a new dam at this point is going on steadily, though not as rapidly as might be wished, on account of the great force of the water and other difficulties. The timbers are bolted to the rock bottom of the river, and the structure looks as if it would stand the time.

DISASTERS BY STEAM.—The Dollar Magazine says, that during the year last there were fifty-three boats lost upon the Western waters, and 107 serious accidents occurred, as follows:

33 boats sunk;
14 " burnt;
5 " destroyed by explosion;
64 " seriously injured.

Over 700 persons lost their lives, and property to the amount of $1,500,000 was sacrificed.

The penalties for carelessness on the part of commanders, engineers, &c., are considered severe, and yet such is the light estimate placed upon human life on our Western Rivers, that similar accidents will continue to happen. To tell the truth, they appear to be unavoidable incidents of the reckless American character.

NEGOTIATIONS OF POLITICIANS.—The Chicago *Democrat* lets out some of the particulars of the recent meeting in New York between Messrs. Buchanan and Marcy. We copy:

> Buchanan wanted Marcy to decline in his favor, which Marcy refused to do on the ground that Buchanan was as obnoxious to the Van Buren men, as Gen. Cass, and that New York would support neither. Marcy then wanted Buchanan to decline in his favor, as the only way to beat Cass. Buchanan said Cass was dead any how, and could neither get Pennsylvania nor New York, and he was not at all afraid of him, and should decline in no one's favor.

COMFORT FOR CASS MEN.—In the course of an article on the improvement of the Illinois river, the Chicago *Democrat* says:

> The River and Harbor bill that passed the House at the last session and was *talked to death* in the Senate, contained an appropriation for both the Illinois river and the upper and lower Rapids.
>
> * * * * * * * *
>
> Gen. Cass *voted to strike out* the appropriation for the Illinois river.

VERMONT TOWNS.—According to the late census, the population of the principal towns of Vermont is as follows:

Burlington, which has the most population, has 7,585 inhabitants; Bennington has 3,923; and Brattleboro' 3,816. Only five other towns in the State have more than 3000, namely: Rutland, 3.71[illegible]; St. Albans, 3,557; Middlebury, 3,517; Woodstock, 3,041; and Castleton, 3,016.

SECESSION.—But four of the States have ever talked of secession, and those who advocated it have found themselves after all their exertions, in a lean minority, as the following table will show:

	Total Vote.	Anti Secession.	Secession.
Mississippi,	50,100	28,700	21,4[illegible]0
Alabama,	74,800	40,500	34,3[illegible]0
Georgia,	90,000	54,000	36,0[illegible]
S. Carolina,	40,500	24,000	16,5[illegible]
Total	255,500	147,200	108,2[illegible]0

THE NEW RAIL.—The Great Western Railroad Co. of Canada West have decided to adopt the the Compound Rail, patented by John F. Winslow, Esq., of Troy, for their entire line of 2[illegible]8 miles; and the order for the iron has gone to England.—Chicago Dem.

PROCLAMATION BY THE GOVERNOR.

The Governor of the State of Wisconsin hereby designates that Thursday the 27th day of November, instant, be observed by the people of this State as a day of public thanksgiving and prayer, in manifestation of their gratitude to the Supreme Giver of every good and perfect gift for the numerous and diversified blessings enjoyed by us during the past year, and as indicating our worthiness to be the recipients of like benefits during the the year ensuing.

This religious festival is peculiar to the American people, established by the piety and sense of duty of our forefathers, to express their grateful feelings and dependence upon a Divine Providence for the enjoyment of life, liberty and happiness. Such being the origin of this religious custom of our nation, it is recommended by the Executive of this State, that we unite as one community with the people of our sister states in observing this day with appropriate religious exercises, and in the giving of thanks and prayer to the Supreme Dispenser of every good, for his protection and forbearance for the past and future.

Done at Madison, this third day of November in the year one thousand eight hundred and fifty one.

Correspondence of the St. Louis Republican.

Late from Utah Territory—Details of Governor Young's Conduct—Escape of Harris with Government Money.

Independence, Oct. 31.

On yesterday afternoon, the Salt Lake mail reached here, arriving at Fort Laramie on the 16th inst. The party in charge met with no detention this trip, other than that arising from a slight snow storm. The roads were in fine condition. Grass and water plenty.

Messrs Richard Phelps, Bester, and Boyer were passengers through—the two latter from Fort Laramie and Phelps from Salt Lake.

It seems that the Mormans are at their old game—creating difficulties with those who try to be friends and neighbors. B. D. Harris, Secretary, L. J. Brandenburg, Chief Justice, P. E. Brocchus, Associate Judge, H. R. Day, Indian Agent, Gillam and Young, have all left the Territory, and will be here by the 4th or 5th of next month. Cogswell and Young, and one or two others, will not be in quite so soon—they have been compelled to leave the Valley on account of the sedition sentiments of Gov. Brigham Young, and other leaders of the Mormon church. On every occasion these men have been denouncing our government before the officers, and especially at their religious gatherings, in such a manner as to make every one unpleasant who was not connected with them—asserting, among other things, "that Congress is a pack of corrupt swindlers" that "our government stinks in the nostrils of Jehovah," &c., &c. Church and State are so much merged in one, that justice on any occasion, cannot be rendered, and any one unconnected with the church is unsafe either as to life or property.

The $20,000 appropriated by Congress for public buildings has been taken to pay off the debts of the church, and only a short time before the merchants and Judges left, Brigham Young called together, secretly, the Legislature, and passed resolutions and issued orders for the seizure of twenty-four thousand dollars more from the hands of Harris. Harris persisted in retaining it, and only by the using of an injunction by the Supreme Court, was he able to do so, and get away with the money. In consequence of this last act of theirs, matters were brought to a crisis, and each and all left—without their property, and the Judges and officers to resign their places. I think, now, all must begin to see that trouble springs from the Mormons, and not others.

Nothing of great interest transpired on the road with the mail party. The Cheyenne Indians are not well satisfied with the treaty arrangements, not having received as many presents as they expected, and perhaps trouble may arise to small parties on the plains, in consequence of it. When the company came to the crossing of the Platte, they found a German calling himself "Prince of Wurtemburg," and servant, in his carriage, in the stream, and the Indians on the bank ready to rob him of all his valuables—they had taken some coffee and other things from him, and were very much disappointed to see so large a number coming up; he was helped out of his difficulties, but lagged behind, and may at last have been taken and killed.

We are suffering here for rain.

A COURT SCENE IN ARKANSAS.—Judge Q., who is a man possessed of the usual 'quantum' of judicial dignity, and never suffers it to be run over without a word of explanation from the offender, was administering justice in the town of———. The Court was proceeding rapidly in the dispatch of the public business with an unusual degree of quietude, except the steady peals of the full toned and eloquent voice of Col. W——, the zealous State's Attorney, when all at once, out in the street, hard by the Court House, a loud voice was heard, making a horrid use of the King's English in this wise: 'Jist hit me if you dare with that stick, and I wish I may be chawed up if I don't knock the death groans out of your infernal ribs!' This attracted the Court's attention, and caused the speaker to halt.

'Mr. Sheriff, bring that belligerent into court,' said the Judge.

The Sheriff obeyed, and brought in by the sleeve a liberal specimen of Nature's works in the shape of a man, about 6 feet 5 inches in his brogans, not a bad face, but indicative of an inordinate passion for fat beef, and "bust-head."

"Is that the man raising that disturbance out doors?" said the Court.

"Well, I 'spose I is, if you call talking in *yearnest* raising a fuss," replied the offender.

The Court commenced one of his moral lectures for which he is so remarkable, strongly animadverting upon the great criminality of swearing, fighting, &c., &c., when the offender, with great earnestness spread over his countenance, something like a mixture of a laugh and a cry, interrupted the court and said:

"Stop, Judge, and let me tell you the rale circumstances of it. I warnt the digressor. He draw'd on me a stick full two feet over, and made circumlocutory motions about my head: and I just congealed myself on my dignity, and suspenced myself on my rights—that's all!

This speech broke the thread of the Court,s remarks, and for several minutes, with its under lip between his teeth, it turned over the leaves of the docket. At length it said: 'Let the gentleman retire for this time.' As the hero of this sketch passed out of the door, he was heard to say—'Be jeemany! I cornered the court that time.'

THE QUICKEST TRIP ON RECORD.—The May Flower, since she has been hauled out, her bottom scraped, and a connecting rod put in her, is now in as good condition as she ever was. On her last trip down she gave an evidence of what she can do when pushed. She left Detroit at 10 o'clock 9 minutes—the Key Stone State 2 hours 9 minutes, and the Hendrik Hudson 2 hours 45 minutes ahead. She passed them both 25 miles below Point a Pelee, going by the way of Cleveland, at which place she arrived at 7 o'clock 24 minutes, making the time in 6 hours 15 minutes. Left Cleveland 8 hours and 2 minutes, Buckeye State 1 hour 20 minutes, and Queen City 50 minutes ahead—passed Queen City 6 miles below Grand River, and the Buckeye abreast of Barcelona, arrived at her dock here 6 o'clock 35 minutes—10 hours 33 minutes from Cleveland—15 minutes better time than the Ocean's quick trip when racing with the Empire State, and 16 hours 48 minutes from Detroit! THE QUICKEST TRIP EVER MADE ON THE LAKES. The wind was blowing strong from Cleveland, from S. S. W. and the Lake unusually boisterous.—With good fuel and fair weather she can, without doubt, make the time between Buffalo and Cleveland inside of 10 hours. She still retains her place as the fastest and best steamer in the world, running on inland waters.—*Buff. Com. Adv.* Nov. 7.

WISTAR'S BALSAM OF WILD CHERRY imparts new vigor to vital action, and relieves the system by opening the the pores of the skin, and promoting the secretion of mucuous matter. Its action is sudorific, sedative and expectorant, by opening the pores, allaying irritation, and by rendering the expulsion of mucuous matter easy.

Those who take the Balsam will feel immediate relief from the distressing irritations that accompany affections of the respiratory organs. The pores have been closed, the Balsam opens them. The Lungs suffer from irritation, the irritation is soothed; the pulse is violent and feverish, they are softened, and the mucuous membrane is relieved of its engorgement with rapidity and ease. All by the use of this delightful remedy,

THE TAIL OF THE COMET

IS forty degrees in length, but so thin in substance that stars are visible through it. The marvellous tales of some nostrum-mongers are nearly as long, and quite as easily seen through.

The proprietor of *Dr. Guysott's Extract of Yellow Dock and Sarsaparilla*, however, has no occasion to resort to *such tales* in order to attract public attention.

The actual cures performed by the article, wherever it is introduced, is the basis upon which the reputation of this remedy is founded, as the hundreds of certificates of renewed hopes, health, and life, that are continually flowing in upon him, will prove.

☞ *Humbugs may flourish* for a time, but a remedy must possess rare medicinal virtues, to establish the reputation that *Dr. Guysott's Yellow Dock and Sarsaparilla* has established wherever it has been used.

Arrival of the Steamships

CANADA & BALTIC.

Accident to the Africa.

Kossuth's Reception in England.

New York, Nov. 9.

The steamers *Canada* and *Baltic* arrived this morning, with Liverpool dates to the 29th ult.—one week later.

The *Canada* came out in place of the *Africa*, which left Liverpool on the 29th ult, but ran over the same night on the rocks off Belfast, and was compelled to return to Liverpool in the morning. It is said she sustained severe damages.

The most attractive features of this news are the accounts of the reception of Kossuth in England, and the formation of a new Cabinet by the President of France.

The *Canada* has brought the *Africa's* mail and 115 passengers.

At Liverpool cotton has farther declined ⅛d. Sales for the week ending 24th ult. are 40,000, bales—since then some 6,000 daily.

At the Exchange, on Friday, the better descriptions of wheat met a good sale.

Choice marks of flour were scarce and rates maintained, while the lower grades were neglected and faily, 6d lower.

Corn quiet and unchanged. Western 18s@19s; Ohio 18s@19s, 6d; Philadelphia and Baltimore 19 @19s. 6d; white corn 29s@29s. 6d; yellow 26s@26s. 6d; mixed 25@26s.

Indian meal 15s@16s.

Provisions—Beef more active, but lower.

Lard declined, from 25 to 35s, with a good demand.

200 bbls pork were taken for export, and 250 bbls by dealers.

Cheese more plenty.

Shoulders and hams are moving off at lower figures.

The London Money Market easy. Consols closed at 97¾@97⅞.

The United States frigate *Mississippi* sailed from Gibraltar for New York on the 15th of October, with the remainder of the Hungarian refugees.

All further search for Sir John Franklin is given up for the present.

At the Council held by the Queen on the 24th ult. Parliament was further prorogued from Nov. 4th to Jan. 25th.

Arrival of Kossuth in England—Reception at Manchester—Sketch of his Speech—Appearance of the Patriot.

The Liverpool *Standard*, Oct. 29th, says: "The steamer *Mississippi*, with Kossuth, his wife and family and suite on board, appeared in the Southampton waters at half-past 1 o'clock on Thursday. Scarcely had the vessel been descried rounding Kalsho Castle before the principal approaches to the docks were lined by large numbers of people of nearly every class. The Mayor proceeded in the customs boat to the mouth of the Itchen, where he boarded the ship and was introduced by Captain Weeks to Kossuth. Immediately afterwards the Countess and Count Pulzskie, followed. Then ensued a scene that will not be effaced from the memory of those who witnessed it.

Both the ladies, Kossuth and the Count, cordially embraced each other, and shed tears in abundance, indeed they were all so affected that scarcely a syllable passed between them for some time. Kossuth's children, four in number, came in for a full share of congratulation, as also did the suite who accompanied him.

The steamer entered the docks about 6 o'clock, and was scarcely in the entrance when Kossuth with his wife and children were discovered standing on the deck, with the Mayor in the midst of them. They were loudly cheered; standing on the mall were a great number of Hungarians, who had purposely come down from London.

It is needless to say that the moment Kossuth ascended the gangway and put his foot on English ground, that they one and all crowded around him and offered their congratulations. The Mayor had provided a carriage and four grays and a band of music. As soon as Kossuth and his lady and children, the Count and Countess and the Mayor had taken their seats in the carriage, they drove slowly from the docks accompanied by the bands and numerous vehicles, and traversed the principal streets; they thence proceeded to the residence of the Mayor. After partaking of some refreshments his worship with Kossuth and his friends proceeded to Guildhall, where an address from the corporation of Southampton was presented after an introductory speech from the Mayor to Kossuth. This was the signal for enthusiastic applause, after which Kossuth stepped forward and said:—

Mr. Mayor and Gentlemen—I beg you will excuse me, an unpretending stranger in the town of Southampton, in your own language, adequately to express my warm sentiments of respect and admiration of your generous welcome. To have the honor of being welcomed by the people of England in this noble town is an august gratification to me. It has always been my study from early youth to look to England as the book of life, by which I was to live. For three centuries Austria has exercised wholesale threats to destroy the liberties of my countrymen, and were it not for her municipal institutions would have succeeded. There was a time when the principles of Liberty were spreading through every one, and when I was standing almost alone against the assaults of Russia.

The municipal institutions are the best protections of liberty. There is in the French Nation, after three revolutions, glory outside but freedom within, withering by the blasting influence of centralization.

He then proceeded to observe that he feared this would be fatal to them. England would always be great, glorious and free, by the preservation of her municipal institutions, and when he saw their race is the only one in both hemispheres enjoying perfect freedom, whether in Kingly Government or Republican Government—in the other he saw it was by preserving these institutions intact. Such were his sentiments—the sentiments of his heart.

Kossuth then expressed his deep gratitude for England's reception of his fellow countrymen—the Hungarian exiles—particularly at the port of Southampton. His own life was of no use excepting that he might make it serviceable to his country. He hoped by the blessings of the Almighty and the encouragement of their sympathies, to see the principles of Liberty established in his native country.

The address was delivered with great fervor, and although he spoke English imperfectly, he managed to make himself well understood.

After the presentation of the address, the national flag of Hungary, which was worked by some Hungarian ladies during his struggle for his country's rights, was presented with another address from the inhabitants of Southampton, to which Kossuth also responded.

The meeting then broke up, and Kossuth immediately departed to the Mayor's country residence at Winchester.

On Saturday, the Mayor introduced Kossuth at a *dejeuner*, and to-day he is at his private residence near this city to meet the members of the corporation with several gentlemen and friends. Among those present were Lord Dudley Stuart, M. P., Mr. Cobden, M. S., and the American Consul.

Kossuth and suite left Winchester at 9 A. M. yesterday, and reached Waterloo Station at 11 o'clock A. M. His arrival was unexpected and consequently there was no demonstration.

The *Univers* says, it is stated on good authority that Lord Palmerston has caused to be intimated to Kossuth that he is ready to grant him an interview, officially, should he desire it—that as far as he, Lord P., is concerned, he would rather see him than otherwise.

FRANCE.—By electric telegraph to Liverpool, Tuesday, Oct. 28, we have accounts of the formation of a new Ministry.

The Monitor announces the new Ministry as follows:

M. Corbin, Minister of Justice.
M. Lurgot, Foreign Affairs.
M. C. Ferand, Public Instruction.
M. D. Deborigny, Minister of the Interior.
M. D. Casablanca, Commerce.
M. D. Acrass, Public Works.
Gen'l St. Arnaud, Minister of War.
M. A. Fortoul, Marine.
M. Bloured, Minister of Finance.
M. C. Giraud, performs the functions of Minister of Justice in the absence of M. Corbin.

A good deal is said in political circles of the forthcoming message of Louis Napoleon, and it is asserted that it will be of a character to surprise, yet not disagreeably to any one, as all such documents are generally the work of the President, and as he confides to no one his secrets, it would be hazardous to say what may or may not be the tenor of a State paper, which for many reasons is regarded as the most important of any he has yet communicated to the General Assembly. The Dutchess Diamgoulene is dead.

LIVERPOOL: W. Tapscott & Co., ST. GEORGE'S BUILDINGS.

ARRANGEMENTS FOR 1851.

AS the season for emigration approaches, we beg to acquaint our friends and the public with our Arrangements for the year 1851, and would inform them, that with an increase of business—for which we are grateful—we are placed in possession of greater facilities for conducting the Emigration and Foreign Exchange Business than any other House in the World, and for which—in a great measure—we have to thank a discerning public for their continued patronage.

By the following List of Packets, and their dates of sailing—being six regular packets a month to and from Liverpool—four, to and from London—and two, to and from Glasgow—persons sending for their friends, or those proceeding to the "Old Country," will perceive it much to their advantage to make arrangements at our office; and as heretofore, our business in *Liverpool* will be under the personal superintendence of our Mr. W. TAPSCOTT—whose well known care and attention to passengers embarking by our line has won for him his present high reputation among the emigrating public.

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the FOUNDRY business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST

Double Oven Cooking Stove,

(Which received the First Premium at the State Fair, lately held at Janesville,)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamented, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superseding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

TAKE NOTICE!

PATENT

BEDSTEAD.

THE undersigned now offer to the public a new article of Bedsteads, entitled "HINKLEY'S PATENT SUSPENSION BED BOTTOM AND FASTENING," which possesses, as they believe, a decided superiority over every other kind now in use.

The advantages of this Patent are, first, the elasticity of its spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "BUG PROOF." For these reasons, it is believed to be not only the best, but the cheapest Bedstead that can be used! In commending its advantages, the proprietors only repeat the statement of competent persons in this city, and elsewhere, who have had the best opportunity of judging of its merits.

FACTS WILL ALWAYS SHOW!

and when we say that one firm in New York (Troy) manufactured and altered over [under this Patent] TWELVE THOUSAND Bedsteads within two years, and that in the eastern cities,

ONE HUNDRED THOUSAND

Have been made and altered, we tell nothing but the truth, and exemplify the advantage, luxury and economy of this Patent over all others now or heretofore in use. These Bedsteads have been adopted at the Astor House, N. York; Troy House, Troy; Mansion House, Troy; Irving House, Troy; Marvin's U. S. Hotel, Saratoga; Globe Hotel, Syracuse; Blossom's Hotel, Rochester; U. S. Hotel, Buffalo; Burnet House, Cincinnati; American House, Massilon, O.; Neil House, American House, Capital House, U. S. Hotel, Buckeye Hotel, Columbus, O.

This patent received the

HIGHEST PREMIUM,

at the late Fair of Rensselaer county, N. Y., New York, Albany; State Fair, Erie county, Buffalo; Boston, Mass. State Fair; Wayne county, O., Stark county, O., and numerous others.

MILLARD, HOLTON & CO., Proprietors of the above Patent, may be found at the Furniture Warehouse of J. F. Birchard, No. 21 Spring-st., 3 doors east of the American House, Milwaukee, where applications for Rights of Towns or Counties will be promptly attended to.

Persons wishing to have their bedsteads remodelled on the above plan, will please leave their names with Mr. Birchard, at the above named place, where they will meet with prompt attention. These Bottoms are considered preferable for Lounges or Trundle Beds, and will be inserted for the sum of $1,25.

In conclusion, we are free to state to a discerning public that, after giving the above Bed Bottom a fair trial, they will award to us the merit of not overrating the good qualities of the "Patent Suspension Bed Bottom," and we confidently look for a liberal encouragement from a common-sense public.

MILLARD, HOLTON & CO.

P. S. Any person infringing on the above Patent, will be prosecuted according to law.

A New and Valuable Improvement in Bedsteads.

We, the undersigned, citizens of Milwaukee, having examined "Hinkley's Patent Suspension Bed Bottom," now being introduced into this city by Millard & Co., pronounce it far superior in all respects, to any thing of the kind that we have heretofore known either in this or any other State. Its superiority over all others, consists in the elasticity of its spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "Bug proof."

We feel, too, that for cheapness, it does not cost any more than the common wood screw, (the expense of the cord and sacking bottom being saved) and for practical utility it must in fact supersede all kinds heretofore used. We would therefore cheerfully recommend it to the citizens of Milwaukee, and the public generally.

MILWAUKEE DAILY SENTINEL.

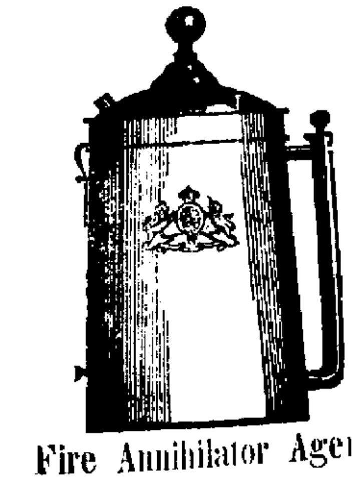
PHILLIPS' UNITED STATES



Fire Annihilator Agency.

THE undersigned respectfully announces that he is the authorized Agent under the English Patentee for the disposal of Phillips' Fire Annihilator, in the Counties of Milwaukee and Racine. [illegible] based upon a certain proprietary interest in the Patent, will be conducted in connection with a company of operation, to be known as

"Phillips' United States Fire Annihilator Company."

Of which Hon. ELISHA WHITTLESEY, 1st Comptroller of the United States Treasury at Washington, is the President; Hon. JOHN M. CLAYTON, of Delaware, is Counsel; Hon. P. T. BARNUM, Esq., General Manager and Secretary.

The prices of Machines and of Charges are as follows:

SIZE OF MACHINE.	PRICE OF MACHINE.	PRICE OF EACH SUPPLY CHARGE.
No. 1	$10	$1 25
No. 2	20	1 75
No. 3	[illegible]	2 50
No. 4	50	3 00
No. 5	35	3 50

☞ Freight from New York added to the above prices.

The machines can be made to order of any size, at proportionate prices.

No. 1, the smallest size, is valuable for extinguishing fires in carriages and small apartments.

No. 2 is used with effect in larger buildings, and at the outset of a fire, and has the advantage of being the most portable of the sizes [illegible] valuable for [illegible].

Nos. 3, 4 and 5 are the Hand Machines of greater power. No. 3 can be carried by a lady. Nos. 4 and 5 can only be handled, to advantage, by a man, and are preferable for large establishments, as they may be effectually used for street fires.

In addition to the Hand Machine, there are Street or District Annihilators, mounted upon wheels, and intended to be drawn by firemen in the usual manner. These machines are possessed of enormous power, and will emit, through a hose, a stream of vapor into a burning building for any desirable length of time.

The Portable Machines are so simple in construction that they are not liable to get out of order, and their application is so easy that any person may effectually use them. The chemical charges may be preserved any length of time.—These Machines thus afford a reliable protection against the destructive consequences of fire, as they are always ready for constant use, and contain within themselves the means of extinguishing accidental fires as soon as discovered.

The Fire Annihilator is made to evolve a humid vapor, and to emit it with great expansive force, so as to penetrate into each nook, and extinguish the fire. But, while the vapor emitted is destructive to fire, it is innocuous to life, and even tends to purify an atmosphere charged with smoke; nor does it injure the furniture or goods which may have escaped the action of the fire. And in this capacity the machine constitutes the best fire escape, and the means of rescuing property from the flames the world has ever known; even the smallest machine will enable the bearer to enter the extension of a large fire, and rescue [illegible] houses and rescue life and property with perfect impunity.

The merits and practical utility of the Patent Fire Annihilator have been thoroughly tested, and are acknowledged by the most eminent scientific men, and the machines have been, by command, supplied to the Royal Palaces of Queen Victoria, The Crystal Palace of the World's Fair, the mansions of the Nobility, the principal Manufactories of Great Britain and France, Theaters, Churches, and other public edifices, as well as [illegible], Shipping, &c., now have them in constant use.

One of the great advantages of this invention, will be the immediate reduction it must occasion in the Rates of Insurance; and the underwriters will at once perceive that their profits must be greatly enhanced by the extraordinary diminution of destruction [illegible] every conflagration.

On the 15th instant a Register will be opened at the office of the Company in Milwaukee, (due notice through the Press will be given of its location) for the reception of subscriptions for machines, and every person will be served in regular rotation, according to priority of application.—When sent by mail, the application will bear date with the day of depositing in the Post Office. The price of the machines, in all cases, to be paid at the time of subscribing, and seven per cent. interest will be allowed on any time (if any) that such money remains over 20 days before the order is supplied. In this arrangement, however, a priority will be given to all City Corporations, and proprietors of large manufactories, where great risk from fire exists, and where the premiums required to insurance is high; also to theatres, hotels, and large factories, where many human lives are jeopardized. Every machine will be stamped with the name of the company; and as the company are determined to accommodate the whole public, by supplying machines of the most durable materials, and chemical charges of the most approved manufacture, at the above reasonable prices, they will prosecute, to the whole extent of the law, all attempts to imitate, counterfeit, or infringe on said patent, as well as every person who may purchase and use such infringements. All importers of Foreign Machines, or those having them in possession, will be prosecuted.

Each machine will be stamped with the name of the county or city to which they are sold, and they can be used in no other locality without a written permission from the Agency. Nor can any purchaser of a machine possess the right to sell the same in any other town, unless he has purchased the territory where said machine is to be sold. Every purchaser of a machine will receive a certificate authorizing him to use the same in the town for which it is purchased.

The subscribers having, in connection with other members of the company, made the strictest investigation and experiments, and being perfectly convinced that this wonderful invention will accomplish all that is urged in its behalf, and thus become an indispensable article for every house, manufactory, ship or other place where fire is used or may be introduced, have accepted the above appointments, and are prepared to fulfill their duties to the public to the best of their ability.

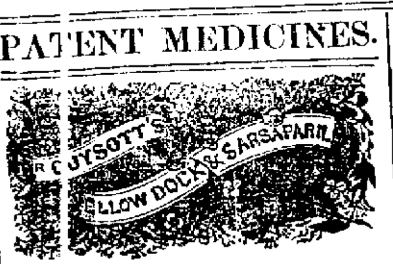
PATENT MEDICINES.



Dr. Guysott's Improved Extract
OF
Yellow Dock and Sarsaparilla.

IS NOW PUT UP in the largest sized Bottles, and is acknowledged to be the BEST SARSAPARILLA made, as is certified by the Wonderful Cures it has performed, the original copies of which are in the possession of the Proprietor. Remember, this is the only TRUE and ORIGINAL article.

This Medicine, when used according to directions,

Will Cure Without Fail,

Scrofula, or King's Evil, Cancers, Tumors, Eruptions of the Skin, Erysipelas, Chronic Sore Eyes, Ringworm, or Tetters, Scald Head, Rheumatism, Pains in the Bones or Joints, Old Sores and Ulcers, Swelling of the Glands, Syphilis, Dyspepsia, Salt Rheum, Diseases of the Kidneys, Loss of Appetite, Diseases arising from the use of Mercury, Pains in the Side and Shoulders, General Debility, Dropsy, Lumbago, Jaundice, and Costiveness.

THE BEST FEMALE MEDICINE KNOWN!

The peculiar maladies to which females are subject commonly produce great bodily exhaustion, accompanied by a depressed and often gloomy state of mind. As the system declines in strength there is a loss of nervous power, and this naturally impairs the energy of the mind and disturbs the equanimity of the temper. Every candid woman who has suffered from female complaints will admit this to be the mournful truth. Now, to obtain relief, it is only necessary to stop the tendency to depression and debility. This is done by renewing that fountain of health and strength, the BLOOD, and no medicine accomplishes this desirable result so speedily and completely as Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla.

Ladies of pale complexion and consumptive habits, and such as are debilitated by those obstructions which females are liable to, are restored, by the use of a bottle or two, to bloom and to vigor.

☞ Dr. Guysott's Improved Extract of Yellow dock and Sarsaparilla is a sure remedy for Hereditary taint.

Females, Read the Following.

NEWARK, N.J., Jan. 25.

Mr. Bennett—We take pleasure in stating that your Yellow Dock Sarsaparilla gives great satisfaction in every case. A very respectable gentleman informed me that his daughter was troubled with difficult menstruation and other diseases peculiar to her sex. She had not had her regular menstrual discharge for a long time; but by the use of Dr. Guysott's Yellow Dock and Sarsaparilla was radically cured. She used Townsend's and others without receiving the slightest benefit. He had one daughter die from the same cause. J. H. TRIPP & Co.

HINSMANSVILLE, Oswego Co., May, 1849.

S. F. Bennett—Dear Sir: I purchased, a short time ago, a bottle of your Yellow Dock and Sarsaparilla for my wife, which she has used for her complaint, Erysipelas and weakness, Falling of the Womb, etc., and it has already helped her very much. Of the Erysipelas it has effected nearly a cure. I have just purchased a second bottle, and judging from the effect of the former feel confident that it will effect a perfect cure.

Yours, very respectfully, N. COBURN.

Cure of an aggravated case of Erysipelas.

The cures performed by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla are lasting. The patient's general health continues to improve after disease is removed. Cures are not chronicled until time has fully tested that there can be no relapse or return of the disease.

NORWAY, Herkimer Co., Feb. 1850.

S. F. Bennett & Co.—Gents: It is with great pleasure that I write you about the very happy effect of your Yellow Dock and Sarsaparilla upon my son, who has long been suffering under that dreadful, loathsome disease, Erysipelas, with which he was attacked in 1848, and was for several months attended by some of our best physicians, who tried their skill perseveringly for five months without any beneficial effects whatever. He became reduced to a perfect skeleton. He had ulcers from his hip down to his knee, which were continually discharging offensive matter. Medical and surgical skill was baffled. Physicians said that his case was hopeless—there could be nothing done to arrest those terrible gangrening ulcers. My neighbors and myself thought his dissolution near at hand. One of my neighbors, who had cured a child of scrofula with your invaluable medicine, wished me to make a trial of it, and more from the restless desire to do something while life lasted, than from any hope of getting relief, I procured three bottles of your "Yellow Dock and Sarsaparilla," and commenced using it, and to my astonishment, he commenced to improve before he had used the third bottle, and before he had used half a dozen bottles, he could walk out. He used in all twelve bottles during the year '49, and by October last he was perfectly restored; every vestige of the disease except the scars was removed, and he remains in perfect health up to the present time. His recovery, under the blessings of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla, and I assure you that I feel myself under great obligations to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son.

Respectfully, JAMES RUSSELL.

TO THE PUBLIC.

THE introduction of Dr. John Bull's unequalled Sarsaparilla, has formed an era in the medical world. Its rise, progress, and the many wonderful cures it has effected, since it was introduced to the public, have been a subject of great astonishment, and even commanded the admiration of the American people. When the history of this truly wonderful medicine is known, together with the extraordinary exertions made by Dr. Bull, to make it the most valuable compound of Sarsaparilla known to the world, its rapid and unprecedented rise and progress will no longer be a theme of astonishment.

Twenty-six years since, Dr. Bull, then a boy, came to Louisville, and was employed for a number of years in studying the business of an Apothecary, with Messrs. Byers & Butler, Dr. T. E. Wilson, and the lamented L. George, Jr. After leaving the service of Dr. Wilson, Dr. Bull was employed by Dr. F. Scorch, an old and celebrated German physician of this city, and who was for many years Surgeon in the Grand Army of Napoleon. Dr. Scorch, during his life, made a fluid Extract of Sarsaparilla for the especial use of the physicians of this city, and which was considered at that time by far the most superior article made. Dr. Bull was employed by Dr. Scorch, in compounding this celebrated Sarsaparilla, and he then conceived the idea, and finally fully determined (seventeen years since) to introduce at some future period, for the consideration of the afflicted, a preparation of Sarsaparilla.

Since that time, his mind has been constantly employed in studying the ingredients, and experimenting to find a complete, safe, and valuable compound of Sarsaparilla, such a one as would be acknowledged by physicians as undoubted in its efficacy, and hailed by the afflicted with demonstrations of joy. By close and unremitting study, he at last succeeded in gaining the desired end. His Extract having been several years before the public, and its merits completely tested, he confidentially appeals to the thousand certificates of its wonderful cures, and hence for its great superiority over all other similar compounds. It is therefore a matter of no surprise, that the question is frequently asked.—"Why don't Dr. Bull's Sarsaparilla continue to advance in the favor and confidence of the public, when all other similar preparations, which have preceded his, have been cast aside as unworthy of the slightest notice?" Tho' it is not required, yet this question is easily answered. Dr. Bull has not worked alone for pecuniary preferment; gain has not been his sole object; he has had a higher and a nobler aim constantly in view—that of relieving the sufferings of his fellow-creatures. Unlike those who compound a good article for a short time, that they may gain a reputation, and having attained the object of their wish, reduce their article, by leaving out its most valuable ingredients, to a worthless mixture, in order to accumulate wealth. Dr. Bull has continued to use the costly ingredients, which his long study and experience enabled him to discover, and which have been of such invaluable service to suffering humanity. He seeks to gain an unspotted reputation not only for himself, but also for his renowned Sarsaparilla; and it is a fact worthy to be recorded, that every gallon of the Sarsaparilla sold by Dr. Bull is made with his own hands, and under his immediate Superintendence. For several years past, he has been daily experimenting in administering his mixtures without charge, to patients pronounced incurable; and to his eternal fame be it recorded, his efforts have been crowned with the most wonderful success. His Sarsaparilla has now gained such a wide spread reputation, and been established upon such a solid basis, that he is firmly satisfied of its undoubted merits, and confidently challenges the combined Medical skill of Europe and America to produce out of Sarsaparilla, a superior preparation to his Fluid Extract.

Dr. Bull would here like to introduce a few of the many testimonials of the wonderful effects of his Sarsaparilla; but to publish the one quarter of the astonishing cures effected by the use of this truly great Medicine, would require a volume of five hundred pages, and the Doctor has to be satisfied by offering the opinions of a few distinguished men, believing that these opinions will be sufficient to induce all who are afflicted to give Bull's Sarsaparilla a trial.

TESTIMONIALS.

Rev. E. W. Sehon—Rev. E. Stevenson.

The following is a verbatim copy of a certificate now in the possession of the proprietor of Bull's Sarsaparilla, Rev. E. W. Sehon is widely, and generally known as an eloquent and accomplished Pastor of the M. E. Church, and Rev. E. Stevenson has been known as one of the most talented and zealous members that the Kentucky Conference could boast of for many years, and at this time is filling the high and responsible station of agent for the M. E. Book Concern—Can the world produce better, or more satisfactory testimony in favor of my medicine?

Louisville, May 20, 1849.

We have used John Bull's Sarsaparilla, and have known it to be used with entire satisfaction; and we have no hesitation in stating that we believe it to be a safe and valuable medical compound, and calculated to produce much good, and relieve much suffering; and therefore would cheerfully and most earnestly recommend it to the afflicted.

(Signed) E. W. SEHON,

Testimony like the following, renders superfluous all comments on the efficacy of Bull's Sarsaparilla.

From Doctor L. P. Yandell, Professor of Chemistry in the Louisville, Medical College.

I have looked over the list of ingredients composing John Bull's Compound Extract of Sarsaparilla, and have no hesitation in saying that they form a safe compound, and one that promises well in chronic diseases, to which it is applicable.

Louisville, June 6, 1848.

Better Testimony than was ever offered in favor of any Medicine.

From Dr. James M. Moore.

Dr. John Bull—I have no hesitation in saying, that I believe your Sarsaparilla to be the best article ever manufactured for the cure of scrofula, syphilis, and many other cutaneous and glandular affections, having used it with entire success in a number of the above cases.

Louisville, Dec. 26, 1847. J. M. MOORE, M. D.

More Testimony from Dr. Moore.

Mr. John Bull—I am using your Sarsaparilla in several new cases of scrofula, and with happy effect. I am now confident it is one of the most efficacious medicines that can be made for that disease.

What Dr. Pyles, Physician by appointment to the Louisville Marine Hospital, says of Bull's Sarsaparilla.

Louisville, March 20, 1849.

I have examined the prescription for the preparation of John Bull's Sarsaparilla, and I believe the combination to be an excellent one, and well calculated to produce an alterative impression on the system. I have used it both in public and private practice, and think it the best article of Sarsaparilla in use.

RADWAY'S
READY RELIEF,

CURES THE WORST DISEASES IN MINUTES AND HOURS, AND STOPS THE MOST CRUEL PANGS IN SECONDS.

So quick and efficient is Radway's Ready Relief in stopping pain and curing diseases, that it has frequently raised the diseased and hopeless invalid from a bed of sickness in a few hours. It has cured the worst pains of

RHEUMATISM,	In four hours.
NEURALGIA,	In twenty minutes.
TIC DOLOREUX,	In ten minutes.
TOOTH-ACHE,	In three seconds.
SICK HEAD-ACHE,	In three seconds.
NERVOUS HEAD-ACHE,	In fifteen minutes.
SOUR STOMACH,	In five minutes.
HEART-BURN,	In five minutes.
BOWEL COMPLAINTS,	In thirty-five minutes.
CRAMPS and SPRAINS,	In twenty-five minutes.
DIARRHEA,	In one hour.
INFLAMATION of the BOWELS	In thirty minutes.
LOCAL INFLAMATIONS	In ten minutes.
INFLUENZA,	In twelve hours.
HOARSENESS,	In ten hours.

Special complaints, swellings, bruises, sores, wounds, &c., it will relieve ten times quicker than any other remedy in use.

LET THOSE WHO SUFFER PAIN TRY IT!

It will prove itself in a few minutes. As soon as it is taken internally, or applied externally, its beneficial effects are seen.

IT IS BETTER THAN ALL OTHER REMEDIES

HERE IS THE PROOF!

There is no other remedy that claims to subdue the cruel pangs of pain in seconds, minutes, or even hours. They require the patient to use dose after dose before a favorable change is promised. Not so with RADWAY'S READY RELIEF. Its effects are instantaneous; the first dose that is taken, or the first external application, commences its great work of relief from pain.

SICK HEADACHE CURED IN 20 MINUTES.

Radway's Ready Relief has cured over 90,000 cases of Sick and Nervous Headache during the past season. In the Western States where this distressing complaint is so general, Radway's Ready Relief has cured every case where it has been applied. Our agent at Romeo, Michigan, writes: "Out of our Village of 1000 inhabitants, Radway's Ready Relief has cured 750 persons of Sick and Nervous Headache, Weakness, Fainting Spells,—curing many of the worst cases in the incredible short time of 15 minutes. It is now surpassing every kind of Medicine we have here, in arresting pain and curing diseases of Nervous, Rheumatic, and of Billious type."

LADIES' BEDSIDE COMPANION.

Radway's Ready Relief, from its universal applicability for all Pains, Aches, and Complaints incident to this country, writes our agent at Rockford, Ill., is looked upon as a God-send. "Our ladies will not even go to bed unless they have a bottle of Ready Relief within their reach; and our men will not venture out of their dwellings without a bottle of this safeguard in their pockets. It cures all Pains and all Aches; Headache, Faceache, Toothache, Backache, Earache, Stomachache, Pain in the Limbs, in the Joints, the Muscles, the Legs, Feet, Arms, Shoulders—wherever and whatever the pain may be, it is instantly subdued by the use, either internally or externally, of Radway's Ready Relief.

RHEUMATISM CURED IN 20 MINUTES.

It has cured Mr. T. Freely, of 679 Water-st., who was confined to his bed for nine months, who tried every Liniment, Sarsaparilla, Life Balsam of any popularity, without one hour's relief. Radway's Ready Relief stopped all the pain in twenty minutes. Mr. Freely is now in good health. It cured a lady at Clifton, Va., so writes Ray Jones of that place, "In two hours, of Chronic Rheumatism." It cured a gentleman from Sing Sing, who had the Rheumatism for SIX YEARS, in twenty-four hours—so says the Hudson River Chronicle, published in that place. If there is a person in this city, now suffering with Rheumatism, Neuralgia, Nervous, Tic Doloreux, who has tried all other remedies advertised, and has not been cured, we invite you to call upon us at our office, 162 Fulton St., N. Y., and we will warrant you a speedy cure.

WEAK AND ENFEEBLED, VICTIMS OF NEURALGIA.

Radway's Ready Relief possesses a far more potent power over this class of diseases, than Morphine, Quinine, Strychnine, or any other Nervine in use. It stops the pain quicker, is free from all poisonous or debilitating properties. It is entirely vegetable, and as innocent as the snowflake. More powerful than all the Nervous Antidotes, mixtures of Sarsaparilla, &c., in use. Its first action is to blunt the acute sensibility of the nerves—to give strength, vigor and action to the nervous energy; to invigorate the functions and secretions of every organ in the system to a free and healthy action; to give a quickened action to the liver and tone to the stomach; to regulate the action of the bowels and secretions of the skin, and carry out of the system all morbid, poisonous and refuse humors; to give health to the body, to strengthen the nervous energy of the whole system; to change the weak, enfeebled, worn out, broken down constitution to a healthy, robust, joyful, strong and hearty being. A teaspoonful of Radway's Ready Relief, taken internally three times per day, and by applying it externally when pain is present, will do all this.

MARRIED LADIES

Should make use of Radway's Ready Relief as a bath. Its invigorating and relaxing properties softens the flesh, gives strength, elasticity and supineness to the joints and limbs. Moreover, it is a powerful regulator of the secretions and functions of every organ in the system. Married ladies by bathing every night with Radway's Ready Relief, at a particular period, will avoid much of the pain attending them on certain occasions.

COUGHS AND COLDS.

Radway's Ready Relief will instantly stop the most troublesome Cough. It has cured hoarseness time and again, in a few hours. Taken internally, it enables the patient to expectorate freely, removes all inflamation, swelling and irritation of Bronchial organs, and by bathing externally, the neck, throat and chest, it produces a quicker action to the skin, the patient perspires freely, it removes the pain from the throat and gives strength to the lungs.

ERUPTIONS OF THE SKIN.

By adding a table spoonful of Relief to a table-spoonful of Olive Oil, it will stop the most painful itching of the skin in a few minutes, and entirely cures Salt Rheum, Ring Worm, Itch, Burns, Sores, Scalds, &c.

ELEGANT TOILET REQUISITES.

To Enhance and Embellish the Charms of Beauty.

RADWAY'S MEDICATED SOAP.

Radway's Medicated Soap, so favorably known through the fashionable world for its extremely bland, purifying and soothing effects on the skin; while by its action on the pores and the minute secretary vessels it expels all impurities from the surface, allays every tendency to inflammation, and effectually dissipates all redness, tan, pimples, spots, freckles, discoloration and other cutaneous eruptions. The radiant bloom it imparts to the cheek, the softness and delicacy which it induces of the hands and arms, its capability of soothing irritation and removing cutaneous defects, render it indispensable to every toilet.

PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

DR. J. S. HOUGHTON'S
GREAT DYSPEPSIA CURER!

THE TRUE
DIGESTIVE FLUID,
OR
GASTRIC JUICE

PREPARED from Rennet, or the Fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of PEPSIN, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all-prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had resource to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.— His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed —but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for diseases of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of PEPSIN, and state many interesting details respecting it.

The fact, that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER,

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

☞ **Observe This.**—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur,"

from which the above cut was taken. By it we can take the exact shape, and unerringly *fit* the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $4.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.

Orders at WHOLESALE filled at the lowest New York manufacturing prices.

THE SUBSCRIBERS, having purchased the exclusive right of using

WOODWORTH'S PLAINING MACHINES,

in the county of Milwaukee, are now prepared to furnish from their own stock the best kinds of planed

as well as to execute orders from customers when desired. These machines are now used in all parts of the United States, and are admitted by general consent to be superior to all others in the quality of the work executed by them. Their Steam Mill is on West Water street, Fourth Ward, near the Rail Road Depot, where they invite their friends to call and see the Machines in operation and inspect the superior quality of the work done by them.

They also keep at their Lumber Yards on Erie street, (old stand) opposite the Red Warehouse, a full assortment of Lumber.

Sawed Timber, of all sizes and lengths, Long Joist and Scantling, Planed Lumber of all kinds, a superior article of sawed Shingles, Pickets, and Cedar Posts.

The quality of their Clear Lumber this season is equal to any to be found in the City, and they would invite the attention of Carpenters and Builders to an inspection of it. They would also give notice that they are the authorized agents for the sale of Rights (which all persons are cautioned against using without right, as such infringements will be legally noticed) to use the Woodworth Planing Machine for the State of Wisconsin.
